

SEE TO SUCCEED

LIVE UNITED®

A SIMPLE CONCEPT WITH TANGIBLE RESULTS.

VISION CORRECTION
IS KEY TO ENSURING ALL CHILDREN HAVE AN
EQUAL OPPORTUNITY TO LEARN AND SUCCEED.

ACCORDING TO THE
AMERICAN OPTOMETRIC
ASSOCIATION, ONE IN
FOUR SCHOOL-AGE
CHILDREN HAS AN
UNDIAGNOSED VISION
PROBLEM.

SEE TO SUCCEED has a simple yet transformative purpose -- giving students the gift of sight. A pair of eyeglasses can change lives and improve academic outcomes.

HOW IT WORKS. The school nurse conducts vision screenings using the convenient, advanced technology of the Spot® Vision Screener. Students who fail the initial vision screening are then invited to participate in SEE TO SUCCEED. A licensed optometrist will provide thorough eye exams in the school-setting. Students who are prescribed glasses get to choose frames from a wide selection of styles and colors. Within two weeks, students receive the glasses they need along with improved vision.

“Too many of our families and children—especially those impacted by poverty—do not get the health services they need or even have access to them. That’s why the Wilkes-Barre Area School District has partnered with the United Way of Wyoming Valley to bring health care to our schools, where our children learn and spend a great part of their days. See to Succeed enables our students to not only get their vision checked, but to provide them with quality eyeglasses when necessary.”

Dr. Rochelle Koury-Speier, Director of Administration and Student Services.

YOU CAN HELP Wyoming Valley children by sponsoring See to Succeed. While a portion of See to Succeed is reimbursable by Medicaid and the Children’s Health Insurance Program (CHIP), our goal is to ensure that un/underinsured children also receive the help they need.
